

LET PROMAT HELP YOU MEET YOUR PRODUCTIVITY GOALS

WHAT IS THE RIGHT SOLUTION FOR YOU?

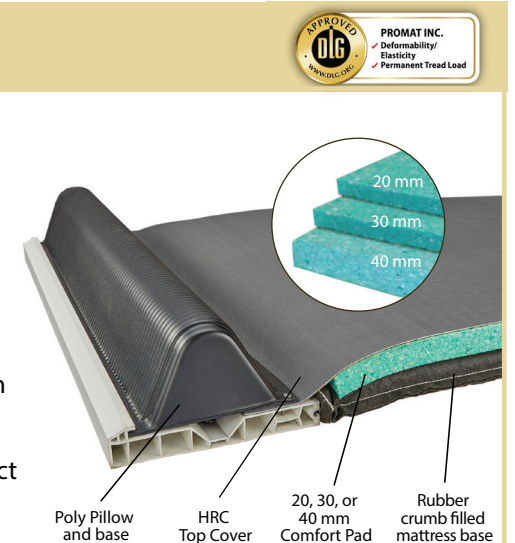

It's a fact, a more comfortable cow is a more productive cow. And nobody offers cow comfort solutions like Promat. For the past 25 years, dairy producers in over 50 countries have partnered with Promat to increase cow productivity and farm profitability by using Promat's comfort-engineered cow beds.

1 PASTURE MAT™ with Comfort Pad

- Sustainably-recycled rubber crumb mattress that provides a stable, consistent, long lasting base
- Comfort Pad, an optimum-density and high-durability European memory foam is layered on top the rubber crumb filled mattress provide an unsurpassed level of softness and comfort
- Reduces hock sores by providing stable footing allowing the cow to get up and down easily
- Promat's patented, industry leading top covers ensures moisture protection while providing an easy to clean, durable and comfortable surface

PASTUREMAT with Comfort Pad is the premier composite bedding product on the market, and Promat's most proven system with over 3 million cows enjoying its unmatched comfort.

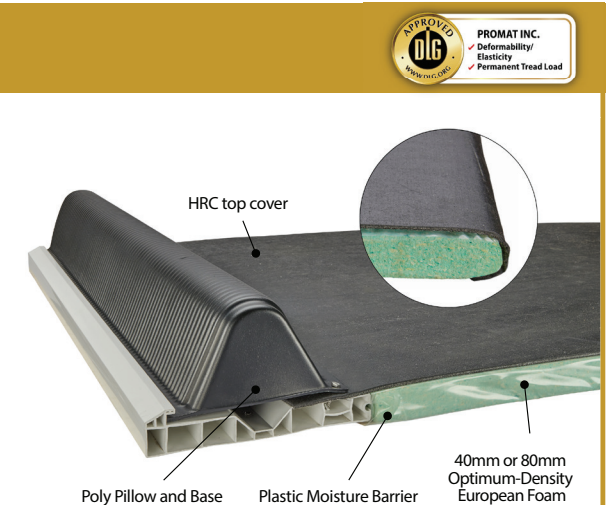

Pasture Mat™ is covered by EU Patent #02377903-0001

2 COMFORT MAT

- Optimum-density and high-durability European memory foam ensures long life and maximum comfort
- Available in 40mm or 80 mm thickness
- Plastic moisture barrier maintains integrity of foam
- Pressure relieving foam promotes improved circulation

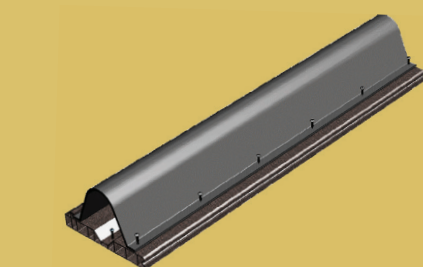

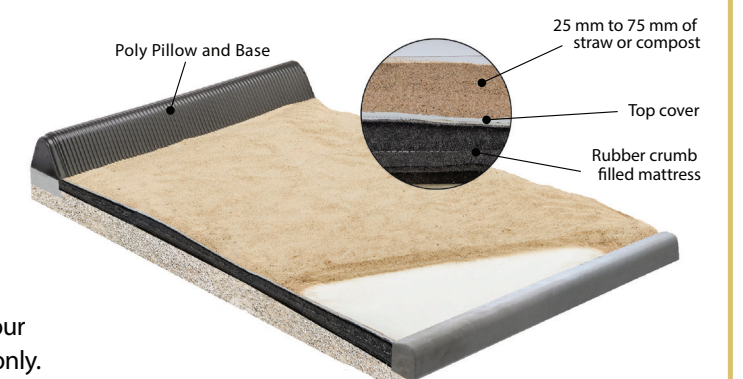

For the ultimate foam mattress on the market, look no further than the Comfort Mat. The high quality foam molds to the exact contour of the cow, giving her outstanding comfort and support.

3 PACK MAT

- The compost and straw saving mattress
- Combines all the benefits of deep bedding with up to 70% less compost or straw
- 25m to 75mm of compost or straw atop a rubber crumb filled mattress and top cover provides excellent comfort and more stable footing

Why deal with mountains of compost and straw? Pack Mat is a more productive solution – for you and your herdsmen – saving you time and labour. For free stalls only.

POLY PILLOW AND BASE

Recommended with all our free stall systems to help position the cow and maintain a clean and dry stall.

TOP COVER OPTIONS

PROMAT's patented natural rubber-impregnated (HRC) and/or wax-coated (CS) polypropylene top covers deliver industry-leading flexibility and footing stability, all the moisture protection of solid rubber without the slipperiness or tendency to dry and crack, all while providing an easy-to clean surface, long-life durability and unsurpassed comfort for your cows.
